Applicants are requested to provide a copy of item labeled "18" on an IDS filed on or about 05 February 2003. The document is Number 30508 in *Research Disclosure*, dated September 1989.

The Office's Action mailed to Applicants on or about 18 June 2003 is hereby rescinded in favor of the following **non-Final** Office Action. In view of the office's rescission any remarks with respect to Applicants' Response (filed on or about 22 September 2003 is deemed to irrelevant.

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 39 and 40 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-132 of U.S. Patent No. 6,049,976; hereinafter '976 (of record). Although the conflicting claims are not identical, they are not patentably distinct from each other because the differences between the claimed invention in the instant Application *viv a vis* those claims in the '976 would have been obvious for one of ordinary skill in this art to practice in instant invention given the claims in the '976.
